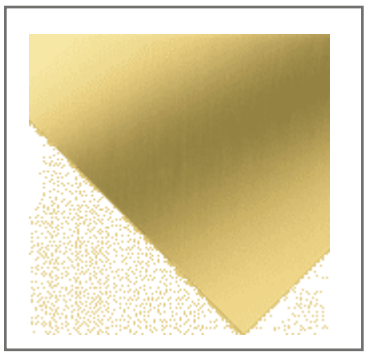
Square Edged	Polished Brass	Twin Switched 13Amp Outlet with 3.1Amp USB

Square Edged 13amp Socket Outlets



Specified in Polished Brass

Description

A range of socket outlets have been designed for ease of installation, all having the superior quality and design features of the Square Edged Collection.

These products can quickly replace an existing 13 amp socket (assuming suitable mounting box is already in position).

Features

- Matching metal rocker switches available on all switched versions.
- Optional neon indicators in switched socket outlets.
- Un-switched sockets available.
- Terminals markings present on housing for clearer identification.
- Switch contacts with silver contacts on both surfaces for good continuity.
- Switched socket outlets have double insulated rockers.

Standards, Approvals & Directives

Comply with BS 1363-2: 1995 (Amd 1-3)

Independent test certificates are held as follows:

Panel Mounted 1 Gang Switched and Unswitched and 2 Gang Switched Socket Outlets - Certificate No: C12/43399-1

Finishes

All plate finishes are individually inspected by the Wandsworth Group, a sign of the high standard we have set for the Square Edged Collection. All available plate finishes can be found in the Wandsworth catalogue.

The 13amp sockets are available in Red, Blue, Black and White moulded polycarbonate housings.

All brass based plates with a lacquered finish are supplied with a clear gasket to help eliminate any reactions that may occur with the plaster, and damage the quality of the finish.

Ordering

When ordering please state in tabular form your requirements for plates/finishes, interior assemblies/rocker finish and boxes.
