Penthouse	Polished Brass	Twin Switched 13Amp Socket Outlet with 3.1Amp USB

Penthouse Collection Twin Switched 13Amp Socket Outlet with 3.1Amp USB

Specified in Polished Brass

Description

A range of socket outlets with USB have been designed for ease of installation, all having the superior quality and design features of the Penthouse Collection. These products can quickly replace an existing 13 amp socket - 35mm back box required. USB charger capability ideal for charging iPad, iPhone, tablets, mobiles, cameras and more.

Standards, Approvals & Directives

Comply with

BS 5733: 2010 +A1:2014

BS EN 60950-1:2006+A2:2013

BS 1363-2: 1995 +A4:2014

Features

- Matching metal rocker switches available on all switched versions.
- Terminals markings present on housing for clearer identification.
- Double pole switches.
- Switch contacts with silver contacts on both surfaces for good continuity.
- Switched socket outlets have double insulated rockers
- 2 Type A USB sockets - 3.1A total output, shared across both sockets.
- When only one device is plugged in the whole 3.1A is available for rapid charging.
- Automated USB overload protection that resets when overload removed.
- Automatic short circuit protection.
- When both USB sockets are in use, the output is automatically proportioned according to demand.
- High efficiency voltage conversion of 83% or better.

Ordering

When ordering please state in tabular form your requirements for plates/ finishes, interior assemblies/rocker finish and boxes.

E.g. For Polished Brass finish:-

Plate - P4157/PB - Twin 13amp switched socket with USB outlet plate, polished brass.

Interior - A4157/PB/B - Twin 13amp switched socket outlet with USB assembly, Black Moulding, rear entry, double pole, polished brass rockers.

Box - 1703/G - Flush box (metal)

Please see the Wandsworth Group catalogue for more information and catalogue numbers.

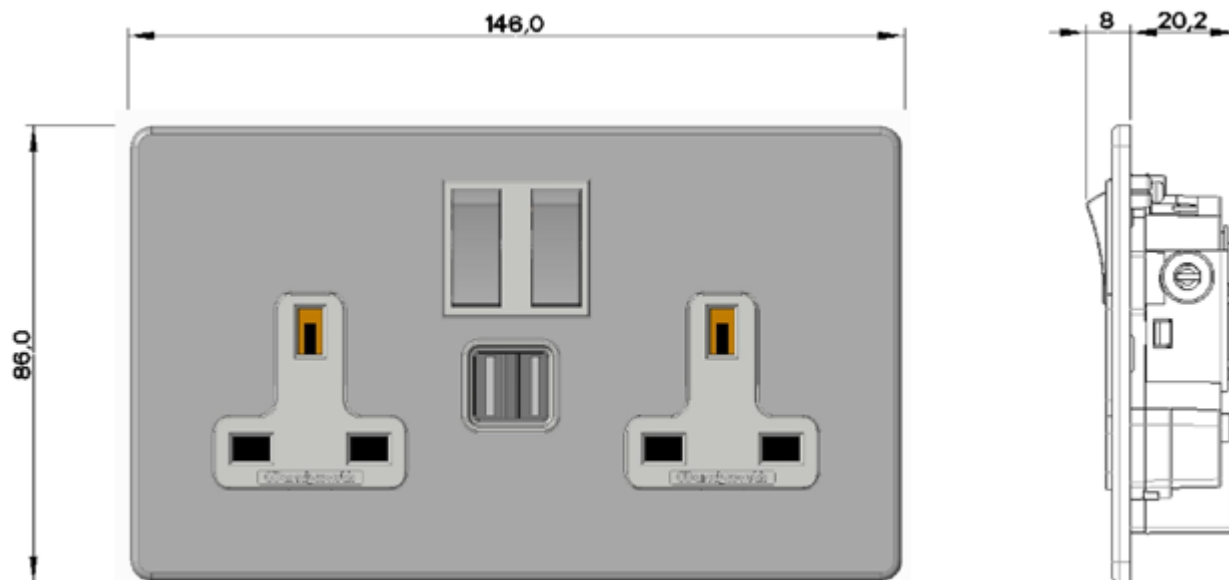

Finishes

The 13amp sockets are available in Black and White moulded polycarbonate housings.

All brass based plates with a lacquered finish are supplied with a clear gasket to help eliminate any reactions that may occur with the plaster, and damage the quality of the finish.
