Square Edged	Polished Brass	Fused Connection Units

Square Edged Fused Connection Units

PSQ666/DAB
A666/DAB

Specified in Polished Brass

Description

A range of 13Amp fused connection units have been designed for the connection of refrigerators, water heaters, central heating boilers and other fixed appliances.

All units have been designed with ease of installation in mind and have the advantageous design features and quality of the Square Edged Collection.

Illuminated – Neon indicators are available on switched fused connection and fused connection units.

Non-Illuminated – available in switched fused connection and fused connection units.

Integral cable outlet available on switched types only.

Features

- Fused connection units have a retained fused carrier that is not removed during fuse replacement.
- All terminal and fixing screws are operated by one-sized screwdriver.
- Metal rockers to suit plate finish (excluding painted finishes).
- All neon indicators are integrally wired into the product and do not require separate connection when installing.
- Red plastic rocker switches available.

Standards, Approvals & Directives

BS 1363
