Penthouse	Polished Brass	Dimmers

## Penthouse Collection 13amp Socket Outlets

Specified in Polished Brass

### Description

Rotary dimmers, suitable for use with LED and resistive load lighting dependant on module. These are push on/push off switch dimmers which act at any pre-selected brightness setting. They have two-way switching that may be used with a normal two-way switch elsewhere or intermediate switch. The secondary switch will not act as a dimmer but only on/off function.

### Standards, Approvals & Directives

Comply with  
BS-EN 60669-2-1  
EN-55015  
CE Marked

### Features

- Push On/Push Off, rotary dimming control
- All products clearly printed with BS No's, ratings, etc
- Complementary control knobs are supplied with the cover plates
- Available in all The Penthouse Collection finishes
- 1 - 4 Gang available (1-2 Single, 3-4 Twin)

### Finishes

All finishes are individually inspected by the Wandsworth Group, a sign of the high standard we have set for The Penthouse Collection.

### Availability

We recommend that Single section plates should not exceed 500 watts load and Twin section plates should not exceed 1000 watts load. Failure to comply with this may result in overheating of dimmer modules and units themselves.

### Recommended Box Depth

42mm  
Metal Boxes to BS4662

### Ordering

When ordering please state in tabular form your requirements for plates/ finishes, interior assemblies and boxes.
