3.5mm Audio Jack Grid Outlet

Description

The 3.5mm Audio jack has been designed to be used for home cinema and digital stereo hi-fi systems. The module allows connection from a personal audio source to the wall mounted module via a 3.5mm audio cable.

Availability

All of our data, media and USB charger outlets can be used with all of our collections of wiring accessory plates and can be specified to contain single or multiple outlets depending upon requirement.

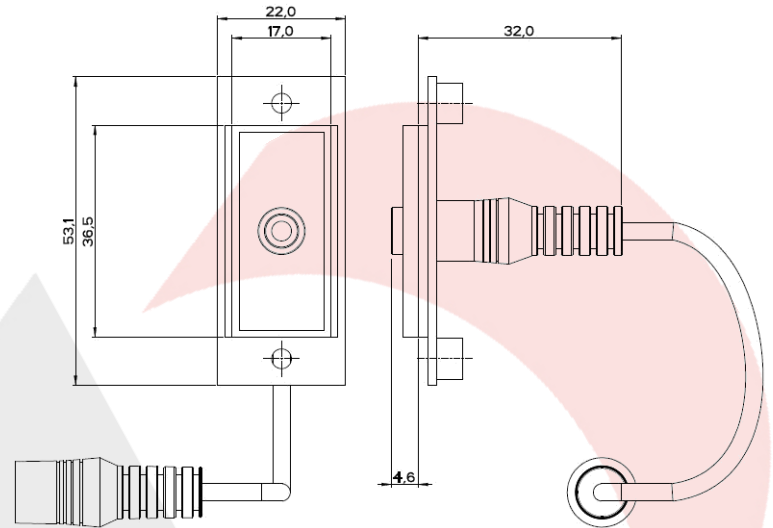

Single or multiple outlets are supplied in either Black or White polycarbonate housings to complement the finish of the chosen plate.

Features

- Provides a 3.5mm audio connection for home cinema connections and digital stereo hi-fi systems.
- Female 3.5mm audio jack socket.
- Moulded housing with a screw attachment, ensuring a stable connection.

Recommended Box Depth:

35 mm
Metal boxes to BS4662.

Ordering

All modular interiors fit into our switch plates and grids, making them available across all of our collections. However, when ordering in The Infinity Collection, the following grids must be used for installation.

G981/* - 1 Gang

G982/* - 2 Gang

G983/* - 3 Gang

G984/* - 4 Gang

When ordering please state the catalogue number of the required module.
