

Euromod—Speaker Connector

Standards, Approvals & Directives

2011/65/EC—RoHS Directive

Description

The Wandsworth speaker connector uses high quality gold plated binding posts designed to be used in conjunction with high end audio equipment to connect the amplifier to the loudspeakers.

Features

- Two gold plated speaker connection binding posts for 4mm Banana plugs or cables entry in the side
- Colour coded black and red
- Clip-In Module for quick and easy installation
- Black or white modules available

Availability

All Euromod outlets are available for all our collections of wiring accessory plates and can be specified to contain single or multiple outlets depending upon requirement.

The Classic Collection takes advantage of plate mounting the clip-in Euromods, eliminating the use of a grid. Modules are supplied separately.

The Infinity Collection plates and grids are supplied together whereas the modules are supplied separately.

The Penthouse Collection supplies the Euromods, plates and grids individually.

Finishes

The speaker module is supplied in either Black or White polycarbonate, complementing the chosen plate finish.

Recommended Box Depth:

35 mm

Metal boxes to BS4662.

Ordering

Interior Euro Module: 3606207 - White
3606208 - Black

Please see Wandsworth Electrical catalogue for more information and suitable grid and plate
