Infinity	TBC	Infinity Collection Overview

Classic Collection Overview

Overview

The Infinity Collection is a sophisticated slim line range that combines all the advantages of grid mounted and plate mounted accessories.

All of the Infinity Collection switch interiors have the option of being clipped into a plastic moulded grid or screwed into a metal grid. Other accessories within the collection are screw fixed, requiring a metal grid for interior assemblies.

For example, combining a switch interior and a USB Charger Outlet as a special, would need a metal grid, whereby both modules are screwed to the metal grid.

Features

- Plastic clip-in grids are available for switch interiors (excluding blanks)
- Patented clip feature on polycarbonate bezel securely retains the front plate. When installed, the wall finish shows through, rendering it virtually invisible.
- Benefits of plate mounted accessories whilst retaining the flexibility of grid mounted accessories.

Ordering

When ordering please state in tabular form your requirements for plates/ finishes, interior assemblies and boxes.

- E.g.
- P921/PB = 2amp Socket outlet plate, polished brass.
 - A921/B = 2amp Socket outlet interior, black
 - 1702 = box, flush (metal)

Please see Wandsworth catalogue for more information.

Finishes

The Infinity Collection is available in a wide range of hand crafted finishes. See Catalogue for details.

All finishes are manufactured using 1.0mm plates that are individually inspected by the Wandsworth Group, a sign of the high standard we have set for The Infinity Collection.

Recommendations:

The Plate sizes used throughout the Infinity Collection are as follows:

Single - 86mm x 86mm

Twin - 146mm x 86mm

Blank Plates/Grids: **P915/***, **G915/*** - Single Blank Plate and Grid

P916/*, **G916/*** - Twin Blank Plate and Grid
