MADE IN BRITAIN

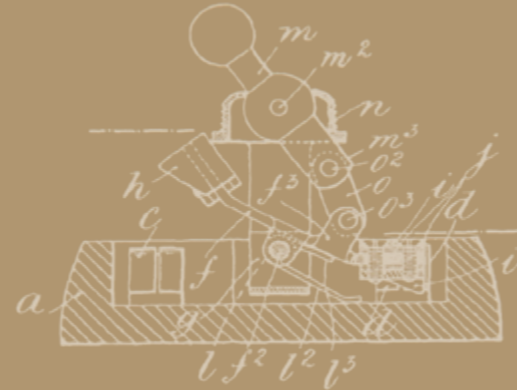

The Company Policy is one of continuous improvement and the right to change designs, dimensions, descriptive matter etc., at any time without notice is reserved. Many Wandsworth patterns and designs are protected by Patents and Wandsworth is a registered Trade Mark. Full details will be provided on genuine enquiry and no infringement will be permitted.

OUR HERITAGE

Since 1904, we have been designing and crafting beautiful, functional electrical accessories to enhance interiors and architectural wonders around the world.

The Wandsworth Journey begins and ends with British innovation, technical expertise and peerless craftsmanship. Each collection of accessories brings together years of knowledge and experience. Every single plate, socket, switch, fixture and fitting has been hand-designed and manufactured on home shores to impeccable industry standards. The result is the premium-quality, low-profile finish that is the hallmark of Wandsworth.

OUR PROJECTS

Our premium quality and passion for precision has led to our involvement in prestigious projects around the world, including:

BATTERSEA POWER STATION, BRITAIN

The residential redevelopment of this iconic British landmark called for designs inspired by the original 1930's art deco interior. The Wandsworth design team referenced our historical library and our 1930's catalogues to exactly match the square edge plate style of that era and reproduced the original colourway in a bespoke Battersea Bronze palette, creating electrical accessories that are completely tailored to the development's specific design style.

KENSINGTON PALACE, BRITAIN

The electrical accessories within the royal household were selected by the Duchess of Cambridge. The palace features plates from three distinctive plate collections: Adam plates from the Heritage Collection in Polished Brass; Classic Collection plates in Antique Brass, Satin Stainless Steel, Bright Nickel and paintable White Etched Prime; and Polished Brass plates from the Infinity Collection.

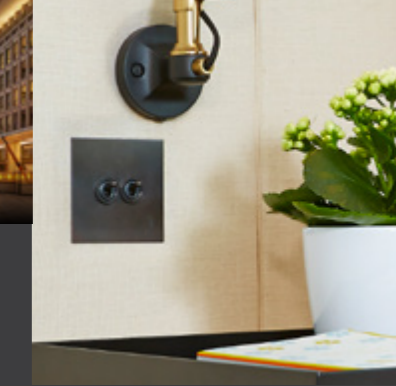

SOHO HOUSE HONG KONG, CHINA

Soho House Hong Kong follows Soho House's design ethos, inspired by the city and its culture, and is characterised by a distinct design identity. With the design style notably taking inspiration from old Hong Kong glamour, the interior designers chose Wandsworth lighting accessories from the Classic Collection in Burnished Brass, a beautifully aged brass, offering a timeless aesthetic that complements the design's unique style.

MANDARIN ORIENTAL HOTEL, QATAR

Wandsworth Electrical provided lighting accessories for the stunning downtown Doha hotel in Light Bronze. The rich metallic finish combined with the designs from the Classic Collection followed their design vision of Qatari heritage meeting contemporary styles.

THE WANDSWORTH JOURNEY

To achieve a design vision, your electrical accessories should never be an afterthought. Whatever your style, we can work with you to provide outstanding switches and sockets for your project.

Our team will guide you through the process of designing bespoke products that meet your requirements and design vision perfectly.

SUPPORTING YOUR VISION

With over 120 years of creating premium light switches and sockets, Wandsworth Electrical is Britain's premier electrical accessories manufacturer.

Whether you're an interior designer looking to redecorate a heritage home, or you're specifying for an international luxury hotel, we will work with you, guiding you through the journey from design concept to completed creation to deliver the perfect solution to your design requirements.

BESPOKE PLATES

However unique your design requirements, we have the technical artistry and manufacturing skill to match your vision.

As well as our extensive range of off-the-shelf plate options available in 7 distinctive collections and 29 standard finishes, we also offer a bespoke design and manufacturing service. Offering complete flexibility for design functionality, our in-house design and production service can customise plates to your exact specification such as shape, size, finish and interior configuration.

MARKETING SUITES AND MODEL ROOMS

For large scale projects, hotels, apartments and developments involving marketing suites and model rooms, we understand the importance of peace of mind.

Once you have been guided through the many choices of colour, specification and finish and have settled on a design, we can provide samples of the final product selection for your marketing suite or model room so you have a clear and tangible understanding of the overall look and feel before your plates are manufactured.

SYMPATHETIC UPGRADES

With our heritage and passion for master craftsmanship, we are proud to undertake the sympathetic modernisation of the electrical accessories within Grade I and Grade II listed properties.

By appointment with one of our design consultants, we will visit the site to gather a detailed understanding of the space and how it will be used, including conducting a site survey, should one be required. You will receive first-hand advice and recommendations on upgrade solutions with plate, socket, switch and finish suggestions to seamlessly blend in with their surroundings.

DESIGN CONSULTATION

No two projects are ever the same, with every design requiring a tailored solution. Whether it's an exclusive finish, specific function or design challenge, our specialist team will advise you on bespoke solutions to suit your exact needs.

Leading with a collaborative approach, our design consultants will speak with you to gain a clear understanding of your design vision, requirements, budget, and what you want to achieve. The Wandsworth journey will take you from your design considerations to installation-ready accessories.

FINISHES AND SAMPLES

Through the design process, you can request complimentary samples in the finishes of your choice, selected from the most extensive array of finishes in the market. In addition to our 29 standard finishes, we also offer a variety of customised finish options, allowing you to match your design vision down to the finest details.

Guaranteed Finish Matching Promise

Through our renowned Guaranteed Finish Matching Promise, we can match any finish or specification of your choice to ensure you don't have to compromise on your design.

Bespoke Finishes

If you have something specific in mind, we can create bespoke finishes, allowing you to tailor a finish around your unique design requirements.

Hallmark Finishes

We offer an extraordinary collection of hallmark finishes, including rhodium, silver, platinum, gold, and rose gold, and can even offer solid 24 carat gold plates.
