# ABOUT WANDSWORTH

—  
Over a century of British innovation, Wandsworth has been crafting premium switches, sockets, and electrical accessories in the UK since 1904.

Our products have been designed, manufactured and crafted in Britain for 120 years, where we have developed our process decade after decade to ensure a premium quality every time. Each plate, socket, switch, fixture and fitting is hand-designed and crafted by our expert team, then tested to impeccable industry standards.

# FINISHES

Our finishes have been organised into three tiers based on the materials and craftsmanship involved.

Please refer to these tiers when looking at our Infinity, Classic and Classic Square Edge collections for individual prices.

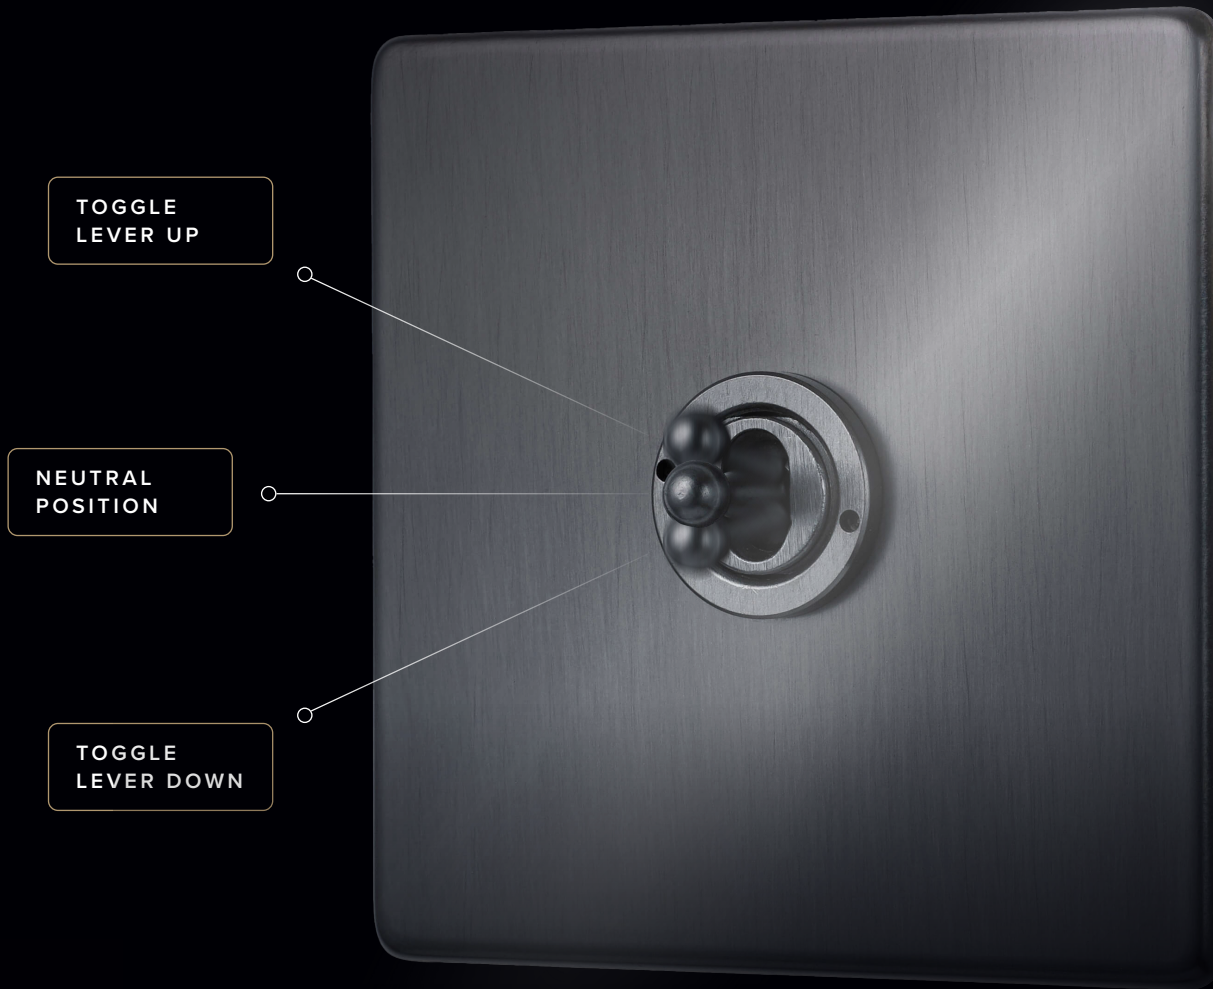

\*Please note: The antique and bronze finishes will vary due to the hand-finishing involved in the manufacturing process.  
\*\*Complete white etched units will be supplied with white interiors as standard.

Note: As standard, interiors will be supplied in the colour listed above i.e. a Polished Brass twin switched socket will come with black sockets and black trim around the brass switches. If you wish to have the other interior colour option please contact our customer service team.

45Amp double pole cooker switch comes with either a black or white switch dependent on finish, as identified in the table above.

For more information please contact our customer services team by email at [sales@wandsworthgroup.com](mailto:sales@wandsworthgroup.com) or by telephone on **+44 (0) 1483 713400**

INTRODUCING

# PENTHOUSE COLLECTION

Pristine, precision-engineered and peerless

Meet the Penthouse Collection, the lowest profile, screwless switch plate on the market and Wandsworth Electrical's most exceptional achievement.

Sleek lines and stylish finishes combine in this collection, which offers a slimline, screwless flat plate with hidden clip-in fixings for the most flush solution on the market.

For those who demand only the best, this collection showcases the very height of our design artistry and skill.

INTRODUCING

# SQUARE EDGE COLLECTION

—  
Quality design finds it's edge

A more contemporary update to our Classic style...Meet The Classic Square Edge Collection. Utilising the same design excellence as its namesake, but offering a square edge, this is a low-profile, flush-fitting standout for modern homes. This collection leverages dependable materials such as solid brass, stainless steel or sustainable aluminium to create electrical accessories with a head-turning square-edged finish.

Available in various configurations across our switches and socket range, add contemporary style to your home with the Classic Square Edge Collection.

INTRODUCING

# HERITAGE COLLECTION

—  
Step into an era of design elegance

Handcrafted with artisan techniques, the elegant design of the Heritage Collection adds character to interiors both old and new. Bringing together the period elegance of three unique historical eras, the Heritage Collection features distinctive detailing to reflect each period: the Victorian range is characterised by a stepped edge; beaded edging reflects the Adam era; and a rope edge conveys the spirit of the Georgian age.

The Heritage Collection is available across a range of configurations and finishes, including our Antique finishes to offer character and traditional style.

INTRODUCING

# CRYSTAL COLLECTION

—  
See-through style with a touch of elegance

Make the most of your wall coverings or paint scheme with the Crystal Collection. Transparent switch plates and sockets that offer distinct toggles, rockers and switches for that touch of style.

The transparent acrylic plates allow you to showcase your walls and enhance the sense of space in a room. The only visible aspect of the accessory is the switch or socket, creating a distinct point of interest.

We design with the decorator in mind; switches and sockets can be wired and connected prior to fixing the cover plate, meaning that decorating work can be completed before the plate is affixed.
