Who We Are

CELEBRATING 120 YEARS OF BRITISH ENGINEERING EXCELLENCE

Since 1904, Wandsworth Electrical has been at the forefront of British design and innovation, crafting premium and bespoke electrical accessories from our UK headquarters. Born in Birmingham and built on a foundation of craftsmanship, we've spent more than a century pushing the boundaries of performance, aesthetics, and quality.

We are proud to remain a UK manufacturer, with every product handcrafted at our British facility. Our commitment to local manufacturing ensures the highest standards in finish, functionality, and durability. At the heart of Wandsworth is our 130-strong team of dedicated professionals, including designers, engineers, craftspeople, and customer service specialists. This depth of in-house expertise allows us to deliver tailored, high-performance solutions that meet every need of modern design.

Today, as part of the Gira family, we combine our proud British heritage with global innovation. We continue to evolve, adapt, and innovate, just as we have for over 120 years, driven by the same pioneering spirit that sparked our journey.

Our Mission

To be the manufacturer of choice for quality electrical accessories
– defining interior design.

Manufacturing, Classic fuse plate

Part of the Gira Family

In 2022, Wandsworth became part of the Gira family, providing us with access to Gira's pioneering technology and the support of a leading European innovator in electrical accessories and smart building solutions.

Gira, founded in 1905, is a global pioneer in intelligent building technology, shaping the future of smart living with precision-engineered solutions. Every product is designed with people at the centre, balancing innovation, usability, and design excellence. With a legacy of quality and forward-thinking engineering, Gira continues to set the benchmark for intelligent, intuitive building control across the world.

What Makes Us Special

Handcrafted Excellence:

Every product is made by skilled craftspeople with meticulous attention to detail.

Beautiful Finishes:

A curated range of finishes designed to elevate any interior.

Premium Metals:

The highest-grade materials for durability, performance, and quality.

Outstanding Service:

Personalised support from design to delivery, with expert guidance throughout.

Made in Britain:

Proudly manufactured in the UK, combining heritage with modern engineering.

A COMPLETE TURN KEY OFFERING OF HIGH-END SWITCHES, SOCKETS, AND CUTTING-EDGE SMART BUILDING TECHNOLOGY.

What We Offer

Extensive Standard Range:

Standard collections of switches, sockets, smart controls and electrical accessories available in a wide selection of premium finishes.

Bespoke Capabilities:

Solutions developed specifically to support your creative vision and project requirements.

Design & Manufacturing Services:

In-house expertise to support projects from concept to completion.

Exceptional Customer Service:

Dedicated support at every stage, from specification to aftercare.

Timeless Design:

A fusion of classic form and contemporary function to suit a range of interior styles.

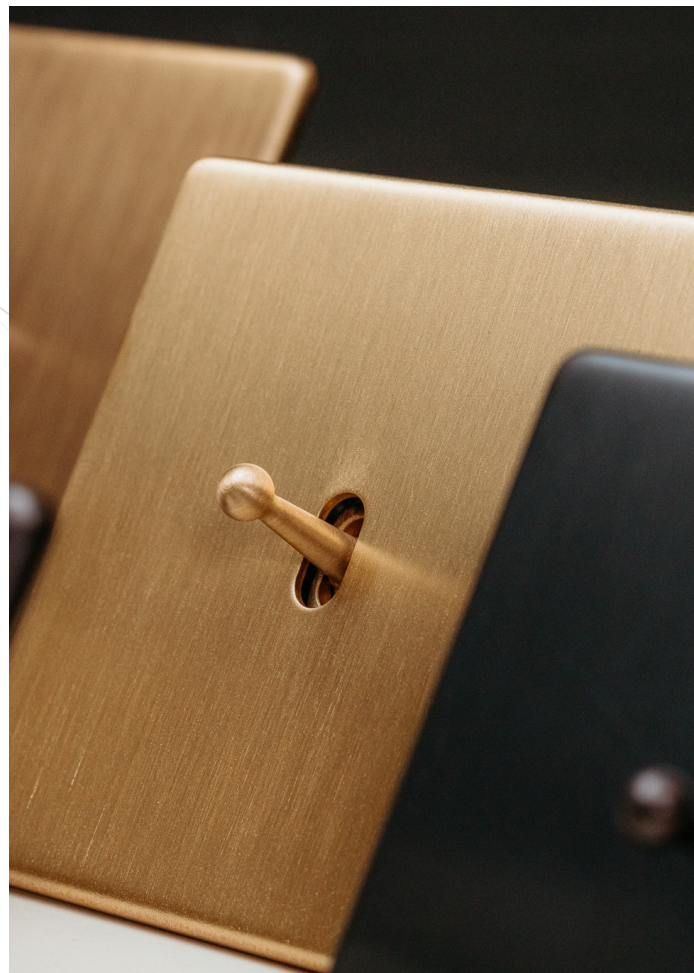

What We Offer

In-House Development: Full control of product design and manufacturing under one roof, ensuring quality and consistency.

Commercial Insight: We understand the demands of commercial projects and offer flexible, scalable solutions.

Value Engineering Support: Collaborative approach to help realise your vision within budget, without compromising on quality.

Innovative Technology: A range of smart, forward-thinking solutions for modern living, including Casambi, KNX, and our proprietary control systems.

Key Sectors

Hospitality

Tailored solutions and custom configurations designed to meet both aesthetic and technical specifications, enhancing the guest experience from card readers and bespoke bedside units to advanced Guest Room Management Systems and smart building technology.

Smart Building

With experience, we can bring smart technology to any project, from simple retractive switches to fully integrated smart control systems. Our expertise encompasses a wide range of intuitive solutions for modern living, including Gira technologies, Casambi, KNX, and our proprietary systems. We believe technology should enrich the way we live, safeguard our spaces, and drive greater energy efficiency.

Our intelligent control systems are seamlessly integrated across both hospitality and residential environments, enhancing user experience and optimising building performance with tailored, design-led solutions.

Residential

Design-led solutions featuring premium product lines and finishes, ideal for prestigious single residences and premium multi-unit developments. Our strong standard offering is complemented by to meet the highest expectations in residential living.

Heritage Buildings

Sensitive integration of modern technology within historically significant spaces, delivering discreet smart solutions that respect architectural integrity while enhancing functionality, energy efficiency, and user experience.

Route to Market

SALES CHANNELS

We operate through a range of flexible sales channels designed to support the varied needs of our clients. Traditionally a project-led business, we work closely with architects, designers, developers, and contractors from the early stages of design through to specification and installation. When it comes to procurement, our products can be supplied directly to contractors and developers, or through wholesale partners, offering a tailored, hands-on service that ensures the right solution is delivered every time.

For broader accessibility and large-scale distribution, we partner with a trusted network of electrical wholesalers, providing wide-reaching product availability and convenience for those who prefer to source through established trade channels. Our internal sales team also supports smaller-scale or bespoke projects, ensuring personal guidance and product expertise is always available.

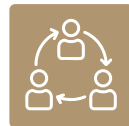

In addition to our trade and wholesale offerings, we also support end customers through a dedicated B2C channel, the Home Selection. A curated selection of our most popular, design-led solutions is available for purchase online or by phone, making premium home upgrades more accessible.

To support all our customers we have a range of payment options including credit card payments (online and by phone), pro forma invoicing, and trade credit accounts for approved clients.

INTERNATIONAL MARKET:

We have an established international network, supplying our products to over 30 countries worldwide. With both British Standard and International socket options available, we're equipped to meet regional requirements across a range of global markets.

Our reach is supported by a dedicated export team and a network of experienced agents, ensuring responsive service and smooth delivery from specification to installation.

COLLABORATIVE APPROACH

We work as an extension of your team, we will design and manufacture products that meet your exact specifications and project needs

Penthouse Collection

Penthouse Collection, Burnished Brass, Bespoke Bedside Plate, TSSO with USB, 4 Gang Lozenge Scene Setting and Rotary Dimmer

Penthouse Collection

UNRIVALLED CRAFTSMANSHIP

Precision-engineered with over a century of expertise, the Penthouse Collection is our most slimline, screwless switch plate on the market. Designed for uncompromising quality and modern aesthetics, it features a sleek flat plate that sits just 3mm off the wall, while hidden clip-in fixings eliminate the need for visible screws, offering a minimalist, seamless finish. Crafted from 100% brass, a fully recyclable material, it combines sustainability with durability and design flexibility, allowing for a wide range of finishes, including brushed, antiqued, polished, or lacquered, to ensure a flawless design that seamlessly integrates into any interior.

Penthouse lends itself well to bespoke combinations, uniting what would otherwise be separate units into a single plate.

Bespoke solutions available:

422mm x 86mm / 287mm x 182mm / 146mm x 272mm

Penthouse Collection, Burnished Brass, 4 Gang Lozenge Scene Setting
Penthouse Collection, Dark Antique Bronze, 1 Gang RTC Ringless Toggle

Classic Collection

Classic Collection

TIMELESS DESIGN WITH A MODERN EDGE

The Classic Collection combines traditional design principles with understated elegance, offering a timeless aesthetic that complements both classic and contemporary interiors. Available in two distinctive styles: the traditional design with its elegant, curved corners, and the square-edged variant, a contemporary take on our original 1930s square edged plate design, both feature our ultra-slim 2mm plates with visible screws for a clean, discreet finish.

The Classic range is perfectly suited to bespoke combinations, bringing separate units together in a seamless single plate.

2mm low-profile plates

Available with curved or square-edge designs

Visible screw finish

Bespoke solutions available:

Up to 770mm

Infinity Collection

Infinity Collection

SIMPLE YET SOPHISTICATED

Our original screwless design, Infinity features our patented screwless flat plate with hidden clip-in fixings for clean lines and contemporary style. This minimalist approach eliminates visible screws, resulting in a sleek, uncluttered aesthetic that seamlessly integrates with diverse design schemes, from minimalist modern to classic elegance.

A bold statement, Infinity features deeper front plates that sit 6mm off the wall - this distinctive profile not only enhances the visual appeal but also provides a more substantial feel, reinforcing the collection's premium quality.

Heritage Collection

Heritage Collection

TRADITIONAL INSPIRATION FOR TIMELESS DESIGN

Bringing together the period elegance of three unique historical eras, the Heritage Collection features distinctive detailing to reflect each period:

- Echoing the distinctive era's architectural style, the Victorian Collection features its characteristic stepped edge.

- The Adam Collection is recognisable by its signature beaded edge design, a tribute to the Adam Brothers' design philosophy.

- With its hallmark roped edge, the Georgian collection provides a subtle ornamentation and historical grandeur.

Features visible screws

4.5mm plate depth

Bespoke solutions available:

87mm x 87mm / 147mm x 87mm

Crystal Collection

SEAMLESS DESIGN FOR UNDERSTATED STYLE

Make the most of your wall coverings or paint scheme with the Wandsworth Crystal Collection. Transparent switch plates and sockets that offer distinct toggles, rockers and switches for that touch of style.

Made with transparent, acrylic plates, the Crystal Collection allows you to showcase your walls and enhance the sense of space in a room. The only visible aspect of the accessory is the switch or socket, creating a distinct point of interest.

Dimensions Collection

Dimensions Collection

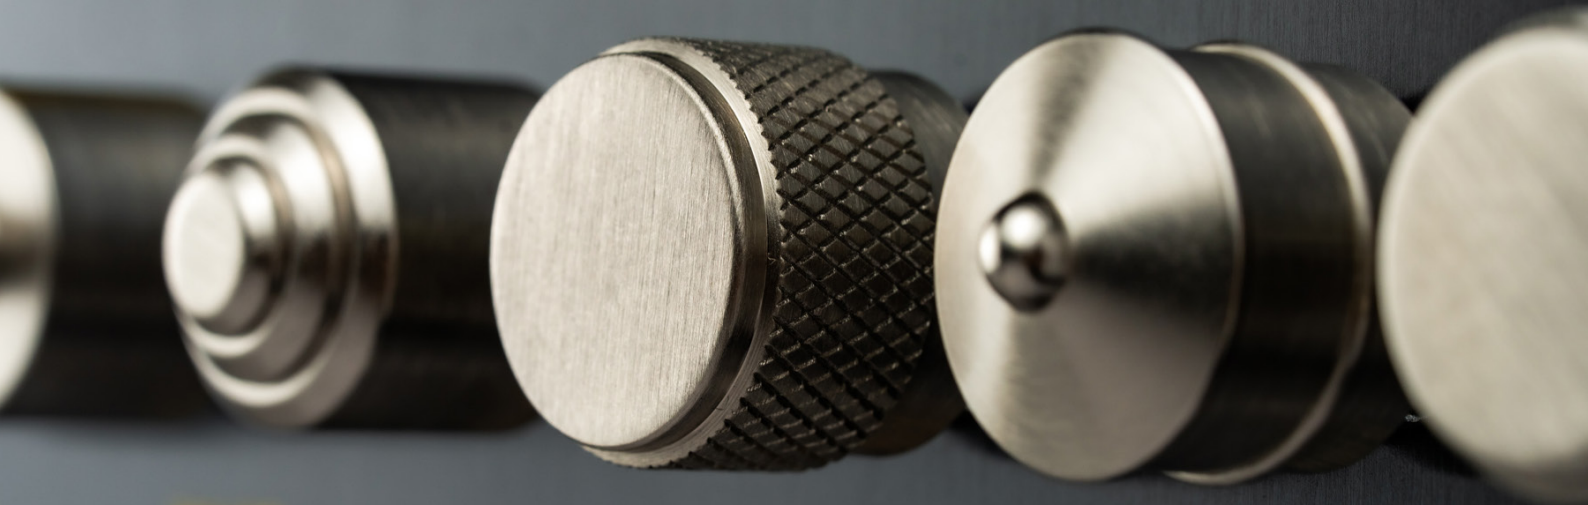

CIRCULAR FOR STATEMENT DESIGN

A distinctive range of circular plates designed to bring a clean, modern aesthetic to any space. With their slim, flush-fitting profile and minimalist silhouette, these round accessories offer a unique alternative to traditional square designs.

Perfect for both contemporary and classic interiors, Dimensions adds an architectural edge, allowing switches and sockets to become a striking design feature, blending form and function with effortless elegance.

Design-led Detail

Designed Dimmers Plate, Satin Nickel and Dark Antique Bronze, Bishop, Conical, Diamond Knurl, Shield and Traditional Dimmers

Design-led Detail

DESIGNED TO BE FELT

Our toggles and dimmers are more than just functional components, they are an expression of refined British craftsmanship, where tactile detailing meets precision-engineered textures. Designed to bring a new level of aesthetic and functional sophistication to lighting control, these elements are crafted from high-quality brass for long-lasting durability and a solid, satisfying tactile response.

With four distinctive toggle styles and six uniquely designed dimmer knobs, our range offers designers and clients the flexibility to create fully tailored, design-led interiors. Available in a wide variety of finishes, and fully compatible with Wandsworth interior ranges and lighting control systems, including full dimming capability integrated across the range, ensuring beauty never comes at the expense of performance.

RINGLESS ELEGANCE

Our ringless switches options refine minimalist design by removing the traditional metal ring around the switch, resulting in a cleaner, more contemporary aesthetic. Available across our sleek Penthouse Collection and as a custom option on the Classic Collection, any toggle or bell push switch can be made ringless on request, ensuring consistency in both look and feel throughout a project. It's a subtle design evolution that speaks volumes in premium interiors.

REFINED PROFILES

For clients who appreciate thoughtful detailing, our Classic Square Edge Collection offers the option of chamfered edge plates, a subtle design feature that delivers a crisp, architectural finish ideal for both traditional and contemporary interiors.

Bespoke Service

BESPOKE FINISHES

With our Bespoke Finish services, we can provide complete design flexibility, offering a wide range of finishes and textures, including custom lacquers and specialist patinas, to ensure each product aligns perfectly with a design vision. Whether you're matching hardware or architectural metalwork, or complementing stone or ceramics, our team can work with you to bring your vision to life.

BESPOKE COMBINATIONS

Our Bespoke Combinations service lets you create custom combination plates, bringing switches, sockets, and controls together in a single, streamlined unit. This reduces the number of wall cut-outs, ensures perfect alignment during installation, and gives your project a clean, polished look. Once configured, you can mix and match finishes, from switches to plates, and more, to craft a design that complements or contrasts with your interior. Made entirely in our UK facility, every element can be uniquely designed and crafted, giving you complete flexibility to create beautiful, functional solutions tailored to your space.

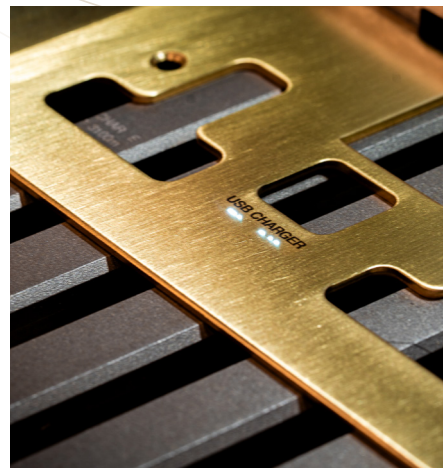

CUSTOM PLATE DESIGN

True to our heritage of craftsmanship and innovation, we also offer custom plate design services for unique project requirements. Whether you're specifying for a boutique hotel, a luxury residence, or a heritage restoration, our in-house team can tailor plate layouts, configurations, and finishes to suit your exact vision.

LASER MARKING SERVICE

Our in-house Laser Marking Service offers a seamless way to personalise electrical accessories. From simple text to custom symbols, our engraving options allow for a high level of detail and design freedom. Combining functionality with design-led customisation, engraving transforms essential touchpoints into refined, characterful features that can integrate beautifully into both residential and commercial spaces.
